***Prosper – making rolling stock more environmentally friendly***

\*\*\*\*\*

**1. Biographical note**

After graduation in Environmental law (1993) he has been consultant in environmental law firm and writer in environmental magazines. In 1999 he joined FS/Trenitalia Environment department, dealing particularly with compliance with law and auditing. From 2001 responsible of "Trenitalia first Environmental report", ISO 14001 certification program, "Trenitalia Environment report 2005" and chairman of UIC working group Environmental Communication. From June to September 2005 Environment Advisor for CER. He then joined UIC in October 2006 as Environment Senior Advisor and chairman of Energy and Climate Changes Expert group.

He has also taken part in many environmental projects for railways, like EU-funded "Photovoltaic Train", "Prosper" and "EcoTransit".
