

NODES

Introduction to the
NODES project

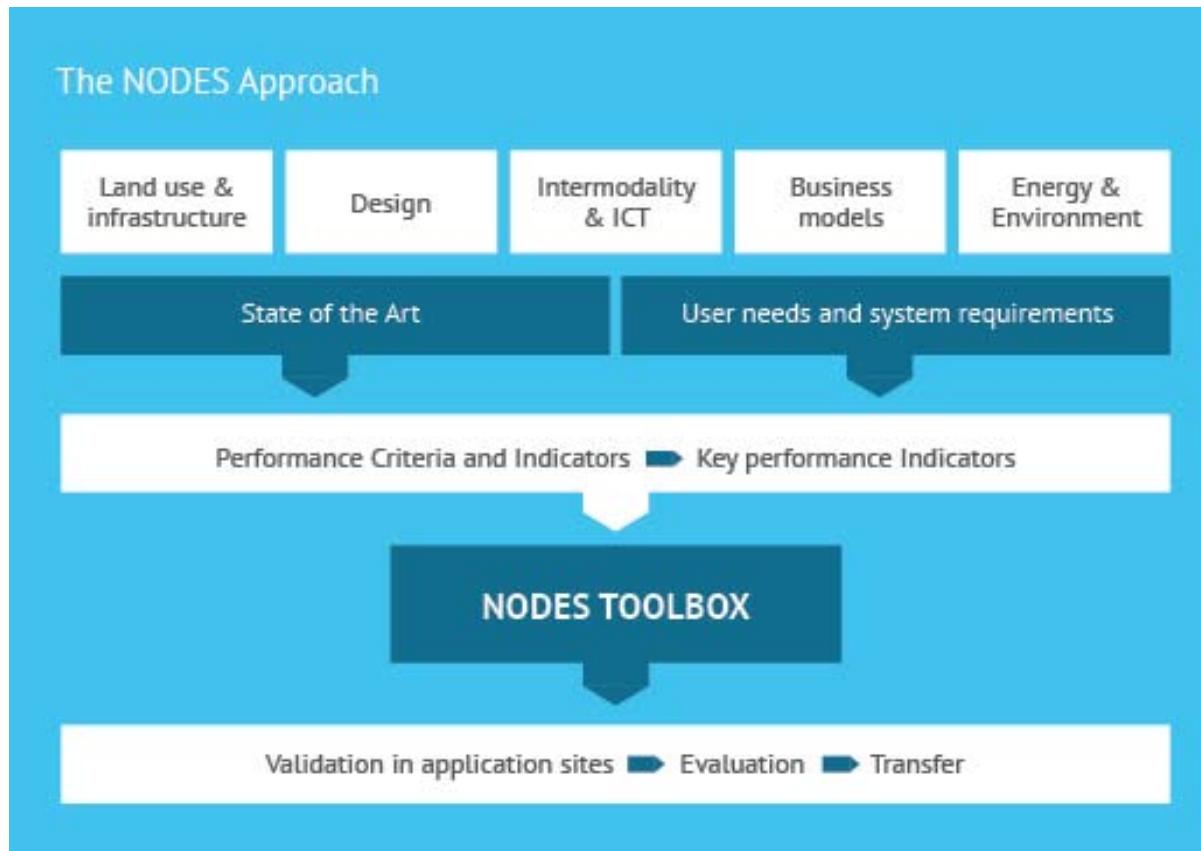

Philip Turner (UITP)

NODES objectives

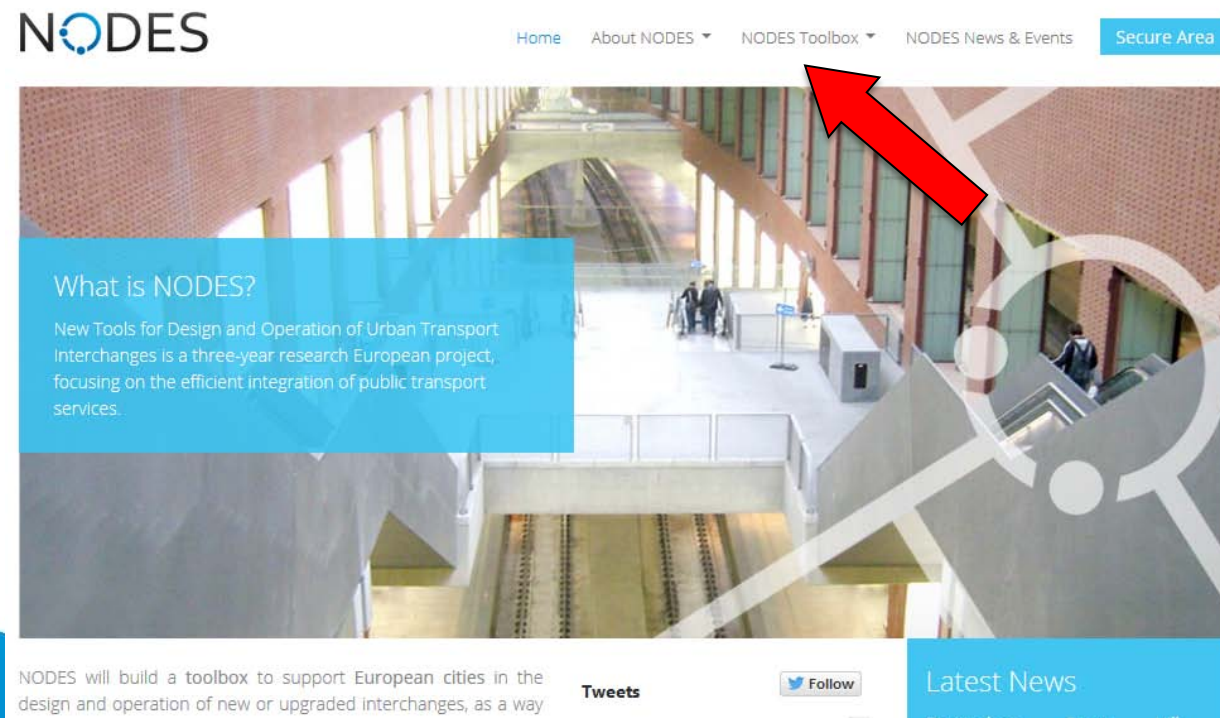

- Build a **Toolbox** to support European cities, transport authorities and operators, in the design and operation of new or upgraded public transport interchanges
- **Enhance services and satisfaction** for travellers, users and societal/economic actors depending on the efficiency of the interchange

NODES approach

NODES Toolbox

- **Web based** (& printed in limited number of copies)
- Access via NODES website www.nodes-interchanges.eu:

What is NODES?

New Tools for Design and Operation of Urban Transport Interchanges is a three-year research European project, focusing on the efficient integration of public transport services.

NODES will build a toolbox to support European cities in the design and operation of new or upgraded interchanges, as a way
