Heipp - MVG

Overview of the subcommittees of the Strategy Committee

Strategy Committee

Subcommittee on Planning

Issues of strategic and technical planning in public transport and in complementary forms of mobility.

Selection of topics

- monitoring and creation of guidelines for traffic installations
- positioning of PT in the context of intermodal mobility
- car-sharing and bicycle topics
- traffic engineering and traffic management
- mobility management

Subcommittee on Sustainable Development

Strengthening of sustainable theme work for the sector and member companies.

Selection of topics

- at least partial bundling of activities and results of VDVcommittees
- generation and implementation of sustainability projects
- sustainability communication
- support of VDV-member companies in all terms of sustainability-related issues, control aspects, communication and positioning

Report on the Activities of the Subcommittee Sustainable Development I

Recent activities of the subcommittee Sustainable Development of the VDV (*Verband Deutscher Verkehrsunternehmen*) in the reporting period Oct. 2011 – May 2012, discussed in the last commission meeting:

A-priority projects

- collection of information/data/facts/ideas for a VDV-sustainability-communication
- completion of the *BMVS*'s (Federal Ministry of Transport, Building, and Urban Development) research project "Elevation of the renewable energy share and augmentation of the energy efficiency in PT" (= study is not yet available)
- bundling of all activities and results of the VDV subcommittees concerning sustainability and development of according networks and platforms, to ensure the interaction of economy, ecology and society (= automatic update in fall 2012)
- environment-database (continuing update, consequent communication of the environmental advantage) and working paper on the calculation of CO2-emissions for GV and PT

Report on the Activities of the Subcommittee Sustainable Development II

B-priority projects

- manual "sustainability-management"
- to assure a complete argumentation in reference to a sustainable mobility in order to achieve mutual targets on all levels (EU, Germany)

Report on the Activities of the Subcommittee Sustainable Development III

Further projects:

- formation of the Progress Report on Sustainability of the German Government > no need for action for the VDV at the moment
- sustainability workshop: no concrete planning yet, might take place during a VDV event, beginning of the year 2013 (depending on the UITP-Charta)
- new VDV-"Sustainability-Flyer"
- possible project in cooperation with the VCD (Verkehrsclub Deutschland) with financial support of the Umweltbundesamt (Federal Environment Agency)

Thank you for your attention!

Flott unterwegs.
