**Application / Candidature
for the
Chair of the Sustainable Development Commission of UITP**

Dear colleges,

coming back from the commission meeting in Roma, I am even more convinced then before. It is a pleasure to see you and to work with you! And I would like to take even more responsibility and offer to support all of you with your work and energy to serve the common goals in our commission, in UITP.

With this letter I officially apply for the function to be elected the chairman of the Sustainable Development Commission of UITP.

I will bring with me not only the passion of working with you but of course also my professional background of more than 15 years of integrated strategy and planning for the Karlsruhe and since 10 years the Munich public transport system. Besides that, I have contributed to build up the German Sustainable Development Commission in our national association VDV.

For our commission, I have a number of ideas for themes and how to organize our common work that I would like to be able to exchange with you.

Have a good week and hope to hear from you soon!

Sincerely yours,

Gunnar
