THE THEME

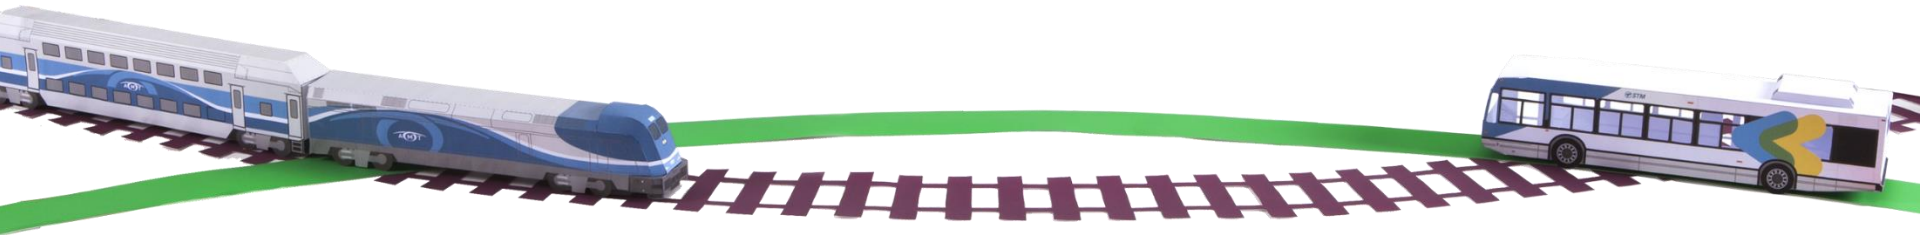

With increasing digitalisation, globalisation, and new players entering the sector, in times of rapid change, we cannot afford to stand on the sidelines.

We need to take an active role and **lead the transition!**

LEAD the
TRANSITION

MAIN TOPICS

- urban mobility and the urban and social transition
- digitalisation
- **towards more energy efficient urban transport systems and decarbonisation**
- greater entrepreneurship to become customer service leaders
- financial or regulatory dimensions related to the above-mentioned topics, as well as their influence on the creation of a new urban mobility landscape
